Data Flow Diagram & User Stories

| Date	24 October 2022
Team ID	PNT2022TMID50185
Project Name	AI-based discourse for Banking Industry
Maximum Marks	4 Marks

Data Flow Diagrams:

A data flow diagram (DFD) is a graphical or visual representation using a standardized set of symbols and notations to describe a business's operations through data movement. They are often elements of a formal methodology such as Structured Systems Analysis and Design Method (SSADM).

Example:(Simplified)
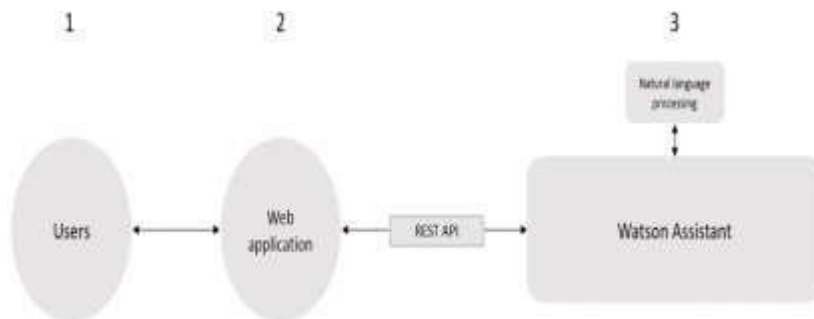

AI-based discourse for Banking Industry
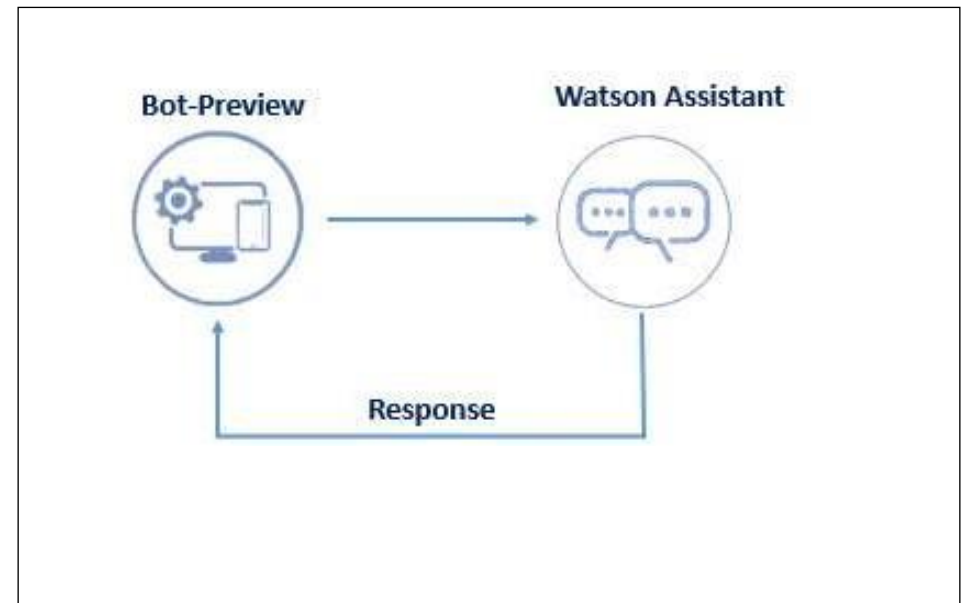

User Stories

UserType	Functional Requirement (Epic)	UserStory Number	User Story/Task	Acceptancecriteria	Priority
Customer (Mobileuser)	Download the database	USN-1	User can register for the application by entering email,and password,and confirming password.	User can access the account / dashboard	High
	Register	USN-2	User can register for the application by entering email, and password, and confirming the password.	User receive a confirmation email & click confirm	High
	Login	USN-3	User will receive a confirmation email once user registered for the application	User can register &access the dashboard with Facebook Login	Low
	Querying	USN-4	User query with a chatbot for clarifications.		Medium
Customer (Web user)	The functional requirements are same as a mobile user	Same as a mobileuser	Same as a mobileuser	Same as a mobileuser	High when compared to mobileusers
